2020 IMPACT REPORT

The difference you made in the lives of adults 50 and older in 2020 is immeasurable. Enclosed is a brief report of the impact you made through your partnership and support of the mission and work of FiftyForward. This report reflects the programs and services offered during 2020 as we navigated the challenges of COVID-19.

As you can imagine, FiftyForward witnessed an increase in need over the past year, yet we could not operate as we did pre-pandemic. This new reality led FiftyForward to completely redesign and rework our delivery of services. We were able to do so because of your support.

When FiftyForward Lifelong Learning Centers were closed to in-person programming by the Governor's executive order, staff learned new skills and found innovative ways to provide engaging and meaningful programs, including new virtual programming, while simultaneously responding to emerging issues confronting older adults. Center staff created a new system to establish weekly wellness calls and outdoor visits with center members, while maintaining health guidelines, to provide vital social engagement and assess members' needs.

Supportive Care programs and services continued without interruption. Expanded services guaranteed we could meet increased calls for assistance and support. All of this was possible, and continues to be possible, because of you. Words are inadequate to express our profound gratitude for you.
